PRESIDENT IS UNDER ACTUAL SHELL FIRE

HUNGARY IS SEIZED BY THE BOLSHEVIKI; CIVIL WAR LOOMS

ARMY OF SEVENTY THOUSAND MEN NOW CONTROLS THE COUNTRY

CRITICAL WEEK PEACE CONFERENCE

Ammunition Dump Catches on Fire and Wilson Dinner Interrupted

(International News Service)

Paris, March 24.—The Bolshevist situation in Hungaria was taken up by the council of ten this afternoon. British gunboats may be sent to Budapest. It is now admitted that a premature announcement of boundaries precipitated the Hungarian revolution. The gravest fears are expressed that only armed intervention wil restore quiet.

(International News Service)

London, March 24.—The Hungarian Bolshevist army of 70,000 men set out today to invade Poland, said a dispatch.

Copenhagen, March 4.—Allied troops are occupying a majority of Hungary, except the Budapest district, to suppress Bolshevist disorders, according to information from Vienna today. Gangs of Hungarians have been plundering. The Hungarian government formerly headed by Count Karoly, has been succeeded at Budapest by a Soviet. The Hungarian "proletariat" is appealing to the Russian Bolshevists for support.

(International News Service)

Berlin, March 24.—The Hungarian Bolshevists have quietly raised an army of 70,000 well equipped men, commanded by Maj. Giezy, who recently reached Budapest from Russia, where he had been in prison. Most of the soldiers are said to be former Hungarian prisoners of war in Russia who were armed by Lenine and Trotsky at Moscow. Non-socialists in Hungary are said to be supporting the new government because of their hatred of the entente. It is officially announced in Vienna that a strong Czecho-Slovak army is being raised and will be sent into the field against the Hungarians.

(International News Service)

Paris, March 24.—President Wilson was actually under shell fire during his trip to French battle fields Sunday, but at no time was he in the slightest danger. The incident occurred while the president's party was leaving Soissons. Lunch had been eaten at that place, and while the visitors were still at the table the sound of explosions broke out. An ammunition dump had caught on fire and shells were blowing up. As the party was leaving it was held up by French soldiers, who advised Mr. Wilson not to make any attempt to cross the territory north of Soissons.

NEGOTIATIONS OPENED BY BOLSHEVIST GANG

LONDON, March 24—Negotiations have been opened between the Ukrainians and the Russian Bolsheviki to settle their differences, said a Vienna dispatch.

HUNGARIAN SITUATION SUBJECT OF INQUIRY

(International News Service.)

PARIS, March 24.—The allied council of ten will examine the situation in Hungary, said the Echo de Paris today. The council will also inquire into Germany's opposition to allowing Gen. Haller's two divisions of Polish troops to land at Danzig.

CRITICAL WEEK FACES THE PEACE CONFERENCE

(International News Service.)

PARIS, March 24.—This is the critical week in the peace conference. The general aspect has become more grave as a result of the failure of the delegates to realize the extreme growth of Bolshevist sentiment throughout the world. In Great Britain President Wilson is being attacked because it is alleged he is trying "to save the face of the league of nations."

In France some such attacks have been leveled at the President because it is declared in some quarters that he does not sympathize with France's heroic struggle and because he has not visited the devastated regions. Every effort will be made this week to complete the first peace treaty, including the constitution of the league of nations and agreements on boundaries and indemnities, so that they may be approved and submitted to Germany within the following week. Another session of the supreme war council was called for this afternoon.

HUNGARY IS QUIET; THE BOLSHEVISTS CONTROL

(International News Service.)

BERLIN, March 24.—Quiet prevails in Hungary, under the dictatorship of the worker's and soldier's council. All of the newspapers here are filled with Bolshevist news and the spread of the movement in Hungary. The Berliner Zeitung in commenting upon Bolshevist movements in Hungary calls it merely a "scare" on the part of Hungary to avoid payment of her debts to the entente.

RED LEADERS SENT TO RUSSIAN CAPITAL

(International News Service.)

LONDON, March 24.—The announcement in Berlin that Karl Kausthy probably would be sent to Moscow to confer with the Bolshevist government is regarded by the Evening News today as a "development of the gravest importance."

Colored Troops Return From Fields of France

PRESBYTERIANS GO "OVER THE TOP" IN BIG VICTORY DRIVE

"VERY JOYFUL OVER RESULTS OF CAMPAIGN" REV. GOODWIN SAYS.

Service For Fighters

ION MEETING TO BE HELD TO WELCOME SAILORS AND SOLDIERS.

Westminster, the parent church of the two other U. S. A. Presbyterian churches of the Twin cities, according to announcement of its pastor, Rev. L. F. Goodwin has gone "over the top" in its "victory drive" of yesterday, with a handsome margin to spare. Following this example, West Side and Willoughby churches have approached or gone beyond their quotas, according to last accounts. This good work of the local Presbyterians is a part of a nation wide effort to raise $38,000,000 for the cause of a Man, who while on earth, "had nowhere to lay his head." Dr. Goodwin said in his Sunday morning sermon that is case his co-religionists actually did raise $38,000,000 in the three hours campaign of yesterday that the accomplishment would take rank with any of the great financial drives of the war.

According to all reports, today, the $38,000,000 has been pledged, which is but the first installment.

Victory Services Held.

Victory services were held at these churches last night, where enthusiasm for the accomplishment of larger things for the spiritual kingdom was largely manifest.

Speaking of the campaign for Westminster, it was stated that its quota of $3,600 had been reached and surpassed by about $300 which with another $200 due from out of town members, will place that church's gift beyond $4,000.00.

Rev. Goodwin said: "In the majority of cases the membership contributed more per capita, than was asked. It was our rule that in case the committee's individual quota was lower than the member approached felt that it ought to be, it would be the duty of said member to raise it. I recall a case of where the apportionment was $35 that the member raised it to $59 and there were many like it. Where the quota seemed too high, the individual members were free to lower it, which was done in a few cases."

"We are very joyful over the spirit and results of our campaign," concluded Mr. Goodwin.

At the close of the morning service at Westminster a special victory service was conducted by Mr. Goodwin, in which the following designated men stood in line before the congregation in testiony of their purpose to do their full bit for the success of the great enterprise: J. I. Chrissinger, Chairman, A. D. Jervis, Harry Wyatt, R. H. Ellis, C. L. Saunders, Carl M. Hayes, Gilbert Crane, A. A. Hardage, Marvin Rankin, I. H. Ditto, C. V. Dupont, Henry Hartung, T. H. Thurman, H. D. McElwin and R. D. Johnson.

This service was closed with the hymn, "Onward Christrian Soldiers," as led by the choir composed of Mrs. B. B. Pickens, Mrs. A. A. Hardage, Mrs. H. L. Henley, Gilbert Crane and B. B. Pickens.

Special Meeting.

Prior to his morning sermon Rev. Goodwin announced that on next Sunday night the Masonic Theatre would be the scene of a special meeting held to welcome home the returning Sailors and Soldiers. He said that the meeting would be held under the auspices of the Central Baptist, the Central Methodist, and the Westminster Presbyterian churches, and that further announcement would be made during the week.

"The responsibility of Stewardship" was the theme of Rev. Goodwin's morning sermon. The preacher said that in his opinion the unwillingness of Christians to assume large responsibility, was the chief hindrance

WASHINGTON, March 24.—The reported declaration of war against the entente by the Bolshevists who have seized the Hungarian government is certain to have a tendency to solidify the great powers—the U. TWO-THIRDS OF STRIKING CLERKS GET JOBS BACK

JACKSON AND FORRESTER CLASH OVER ALLEGED ILLEGAL ACTION.

(International News Service.)

ATLANTA, March 24.—Reports today indicate that about two-thirds of the railway clerks who struck on the N. C. & St. L. system are back at their work, with about one-third of the strikers refused employment by the railroad officials. It is understood that the clerks, having returned to work, will continue their efforts in Washington to secure a hearing of their grievances against Federal Auditor Ottarson.

FEW CHATTANOOGA CLERKS REINSTATED

(International News Service.)

CHATTANOOGA, March 24.—Clerks who walked out of the local N. C. & St. L. offices on March 11, Monday morning filed into the offices seeking their jobs back, following the vote taken Sunday night to abide by the decision of the grand officers that the strike had been illegally called. However, only a small percentage of the men and women who walked out are being taken back, as their places had been pretty well filled.

STRIKING CLERKS GO BACK TO WORK TODAY

NASHVILLE, Tenn., March 24.—The clerks on the N. C. & St. L. Railway who went on strike March 11 returned to work today, in obedience to the order of C. F. Jackson, system chairman. Mr. Jackson was himself dismissed from office as one of the eight direct representatives of the clerks by James J. Forrester, grand president of the Brotherhood of Railway clerks, who charged that he had violated his authority in calling the strike. Mr. Jackson in turn preferred charges against Forrester, alleging that the latter had not acted in good faith.

In a statement issued this morning, Mr. Jackson said: "I have ordered the clerks back to work. Under the circumstances it seemed the only thing to do. I still maintain that not an illegal step was taken in calling the strike. Mr. Forrester on more than one occasion, in the presence of numerous clerks, announced that the cause of the strike was 'just and legitimate.'

"That is being sworn to in charges that now are being prepared to be presented to every brotherhood lodge in the country.

"First action on the charges against the grand president will be taken by the Stone Mountain Lodge in Atlanta Tuesday night. The two other Atlanta lodges then will act on them, affixing their seal, when they will be forwarded to Nashville, and on to other lodges."

TENNESSEE TROOPS BACK IN THE U. S.

Included in the arrivals is the 114th Field Artillery, commanded by Col. Luke Lea, owner of the Nashville Tennessean, and the 115th Machine gun battalion. Col. Lea two days before reaching land was notified by wireless of the death of his wife, which occurred ten days ago.

MANY DEALERS TO ATTEND AUTO SHOW

FACTORY EXPERTS TO COME HERE TO EXPLAIN CAR BUILDING.

A number of Alabama automobile dealers will attend the April show of the Malone Coal, Grain and Motor company it was indicated today by the acceptances received of invitations sent to dealers over the state.

In addition to the retail salesmen it was announced that a large corps of factory experts will be here to explain the finer points in the art of automobile building. The decorators will begin work on the show rooms in a few days, the frame work for merchant's booths having already been completed.

The show is attracting wide attention throughout North Alabama and southern Tennessee, Mr. Malone conducting the most extensive advertising program ever undertaken by an Alabama show, the newspapers of the state being used freely in addition to the lithographs which have been spread all over the Tennessee Valley.

CORP. ROY BROWN WEARS DECORATION GIVEN FOR VALOR

TWENTY-FIVE LOCAL NEGROES FROM 366TH INFANTRY ARRIVE SUNDAY.

Prefer the U. S. A.

CONFIRM REPORTS OF CONDITIONS AT BREST, FRANCE, PORT OF DEBARKATION.

About twenty-five colored soldiers from the Twin Cities, veterans of a strenuous campaign in France, returned S[illegible] from over seas. Clad in khaki, with their steel helmets attached to their bulging packs, and looking fit and fine, the men attracted considerable attention as they alighted from the train, and as they swung through the streets with a jaunty military air.

The returning soldiers were for the most part attached to Company E, 366th U. S. Infantry, Buffalo division. They "went over the top" on four different occasions, the last time being the day the armistice was signed—November 11—when the company lost two men.

Conspicuous among the veterans was Corp. Roy A. Brown, of Decatur, who was awarded the Distinguished Service Cross for gallantry in action. He was sone of the very few Morgan county soldiers thus decorated, and perhaps the only negro from this immediate section to win the coveted distinction.

Among the men who returned was Alonzo Mattison, son of Henry Mattison; "Rastus" Malone, formerly with Johnson's barber shop; Will Walker and Corp Brown.

At the Daily office this morning, Mattison, Walker and Brown told of their experiences abroad.

"The Alabama troops, whether white or black, won a reputation in France, not only for bravery in battle but also for courtesy and kindness,' said Mattison. "It will be a long time before the French people quit talking about the Alabamians."

The men stated that reports regarding conditions at Brest, France, the port of debarkation, were only too true. The mud there is knee deep, they stated.

The reception extended the veterans at New York and other American cities was highly praised. The citizens of Gotham, and especially the Red Cross, showed them many courtesies and gave them a royal welcome back to their native soil.

All of the men insist that the U. S. A. is good enough for them. "I wouldn't give a yard of United States for all of France," was the declarstion of Corp. Brown.

INCOME TAX MAN AT COURT HOUSE

WILL BE HERE FEW DAYS TO AID CORPORATIONS IN MAKING RETURNS.

M. P. James, of the internal revenue service, returned to Morgan county this morning and for a few days will have offices at the court house. He will spend about one month in North Alabama, dividing his time among six counties.

Mr. James, on the present trip, will give his attention entirely to corporation returns and to individuals who are delinquent in making income tax returns. The partnership blanks have not yet been issued, and for that reason he will not go into this matter at present.

DES MOINES, Iowa, March 24.—I. W. W.'s, Bolsheviki, radicals, terrorists, beware!

Iowa is after them all. A bill to prohibit "criminal syndicalism"—the advocacy of unlawful methods of terrorizing labor and industry to accomplish political reform would be punished under a bill introduced in the Iowa Senate by Senator Evans.

HOW THE PRESS VIEWS THE LEAGUE OF NATIONS.

Does the American press favor the league of nations? This question is answered by the New York World, which has, through its correspondents in two score of the national centers of population, sought to ascertain the popularity of the Wilson covenant with the editors of the United States.

"We, the American press, do find that the League of Nations is the thing," is the verdict of the press. The verdict, however, was not unanimous, the following resume of the World's investigations shows:

EAST—Of 121 papers definitely classed, sixty-three favor the league, forty-three oppose it and fifteen are neutral. The opposition, in nearly all instances, is against the proposed covenant, not against the idea.

SOUTH—Only twelve papers are stated as in positive opposition, while 347 have declared themselves favorable to the league. In instances where figures are not stated, the correspondents report that from 75 to 90 per cent. of the papers favor the league.

MIDDLE WEST—While the papers in this section favor the league idea, there is considerable outspoken opposition to the draft of the covenant and a demend for amendment and modification. However, many Republican papers, as well as nearly all the Democratic papers, favor the league.

NORTH—In this section, composed of States along the Canadian border between the Great Lake and the Rockies, the interest in the question is not as great as elsewhere, but a majority of the papers have declared themselves in favor of the league.

WEST—In many of the Western States editorial opinion appears to have divided on strictly party lines, the Republican papers, however, carefully insisting that they oppose the covenant as it is and not the idea of a League of Nations.

It is significant to note that what opposition there is to a League of Nations is a partisan opposition, based on the fact that President Wilson, a democrat, was the prime mover in the crusade for world peace. Very few, if any, newspapers have had the temerity to come out boldly for the perpetuation of war, or even for a mere military alliance of the leading allied powers as a threat to Germany against further depredations.

It should interest the newspaper readers of Alabama to know that but two daily newspapers of this state oppose the Wilson draft of the peace covenant—the Montgomery Advertiser and the Tuscalcosa News. And one of these—The Advertiser—admits that it borrows its money if not its views from the brewers.

MISSOURI "SHOWS" SENATOR REED.

The democrats of Missouri, outraged by the speeches which he has made in opposition to the League of Nations, have partially "shown" Senator Reed. And they are hurting for a chance to show him again, as was demonstrated by the nature of the resolutions adopted by fifty of the sixty-seven democratic members of the legislature.

The resolutions suggested to Senator Reed "that if he is so confirmed in his opinion that the Democracy of Missouri, as well as the people thereof, are not advised and have no convictions upon the subject of the League of Nations, and are not in harmony with the leadership of President Wilson, that he resign his position as senator and again submit himself as candidate for the high position which he now occupies to the entire dissatisfaction of the party which nominated and elected him, and again submit himself as a candidate to fill the vacancy which would be caused by his resignation."

A challenge like this is one that would not be ignored by a man holding a public office who believed that the people whom he claims to represent would sustain him in the position that he has taken. It affords a colossal opportunity for Reed to effectively demonstrate that the members of his party [illegible] voters of his state are out of sympathy with the Wilson covenant. Should Reed resign and be re-elected, is there a sane man who would refuse to admit that the American people as a whole are tremendously opposed to a league of nations? And because this is so, Reed should accept the gage of battle, or should retire outright. By remaining in office he is admitting either than he misrepresents his constituency, or that he is the enemy of the very cause that he professes to espouse.

HUNTSVILLE TIMES HAS A BIRTHDAY.

"Volume 10, No. 1, graces the front page of the Daily Times today," said the Sunday's issue of the progressive Huntsville publication. This means that the paper has passed another milestone in its successful career and that it has turned its face towards the sun of a coming year. It does so under unusually auspicious circumstances, for the Times is now the only newspaper of any kind published in Madison county, the fifth largest county in the state, and the birthplace of the newspaper industry in Alabama. Huntsville had two newspapers when Morgan county was in its infancy. Its public opinion was being moulded by the press more than half a century before the discovery of iron ore started Birmingham on its climb to metropolitanism. When Montgomery and Mobile and Anniston and Decatur were getting their reading matter from handbills, Huntsville was sticking its toes under the table and reading right off the front page. That the century of progress which has given Alabama more daily newspapers than any commonwealth in the South with the exception of Georgia has left the Times supreme in its field is a tribute to the alertness of that enterprising journal. it signifies the "survival of the fittest." The Daily extends its congratulations to the Huntsville Times and to Editor Pierce. They are there—serene, business-like, ready to serve—largely because they stand for what is best. May Huntsville and its press continue to grow and prosper.

"We are 100 per cent optionist," the types caused Editor Pierce of the Huntsville Times to say. And the Daily always had the idea that both the Times and its editor were prohibitionists!

"I believe in the last analysis I will support the League of Nations, but I don't want to commit myself to any action until its constitution is in writing and before me, and until I get your views on it." This statement is attributed to Senator Underwood, of Alabama, while addressing a Birmingham audience. The reluctance of the Senator to form a hasty conclusion is in marked contrast to that of some of his colleagues, who couldn't wait for the President to come home to express their own views. However, it is hardly possible that Senator Underwood will oppose the peace covenant if his position is to be determined by Alabama sentiment.

The coal miners are now demanding a five day week and six hours a day. When they get their demands, what are they going to do for exercise?

JUST IN PASSING

IRWIN BACK.

Sergeant Frank Irwin, known locally as a terrific hitter of the base ball before he set sail some two years ago to fight the Hun, is back home. Said Mr. Irwin: "I was in France a few days over 16 months. We began our fighting in Loraine then came to the Toul front. "The fighting got hot when we went in at Chateau Thierry toward the last of July. My section of the Rainbow division had the Hun in full retreat across to the Marne, when we were ordered out for a rest. We next went into the Argonne Forest. There was our hardest fighting, it was not long after we got through there that the armistice was signed."

When he was asked if it seemed true to him as charged that there was too much loss of American lives in the Argonne, Mr. Irwin said: "Of course I might answer differently if I had been a staff officer and knew more of the facts, but the positions held by the Germans in the Argonne were extremely difficult. They held all kinds of ridges and hills and these were perfectly fortified. It was impossible to destroy their positions entirely with artillery, so the only thing left to do was to just pour in the man power."

Asked as to his stay in England, the Sergeant said: "It was pleasant throughout. Any unpleasantness reported as between English and American soldiers arose wholly because the English girls played favorites with the American soldiers and this made the Tommys jealous as it ought to have done." The retired sergeant is not the "broken soldier" of poetry, by any means. Instead of 160 his weight when he left us, he now lacks but two pounds of weighing two hundred, and he is a full two inches taller than when he went to "glory or the grave. Frank is apt to hit the sphere for a many a home run if he plays this year.

PRICES HERE LOWER.

"I am agreeably surprised to find that the prices of merchandise here in the Twin Cities are lower than those that prevail at Birmingham," said Ernest Spain, a resident of the Magic City. "By merely reading the price cards in the show windows it is made quite plain to me that the merchants here are accepting a lower profit than those at home."

Value of Concentration.

Concentration is the most desirable of mental faculties. It is the power of paying attention to the thing and person in hand. It is an investment that yields large dividends, including that of fascination.

A THOUGHT FOR USE ON SABBATH AND EVERY OTHER DAY

On Thursday the Associated Press writer at Newport, Tenn., told the world a story, that to read it, was to weep. It rivaled the accounts that thrilled the world fifty years ago of the loss of one Charley Ross, whom they said then, the Gypsies carried away.

Little Abraham Lincoln Ramsey, three years old, toddled after his big sisters, seeking to follow them to a grocery store located among the mountains of East Tennessee. But the adventurous child did not follow aright. His silent little foot prints told the searchers that he had taken the wrong trail and at last accounts he was headed toward the heights of the great smoky mountains. Some think that tired to exhaustion the little son of some fond mother slept and was eaten by one of the wild bears known to frequent the mountains.

"Both men and women abandoned their work and took to the fastness of the wilderness searching for the lost boy," said the Associated Press writer. Seeking the lost has been the big job around Newport, Tenn., since March 11.

Everybody feels that such was the only proper and natural thing to do. But that lost child is not really lost. As his tired little feet carried him toward the mountain top he was also nearing the "higher ground" on which our human feet cannot walk. If you start after the sure enough lost now, it is not considered the proper thing, at least by them.

Our soul-damned lost will tell you that they are not lost; but that if they are "no more lost than you are."

Or, "I am as good as you are" to use the conventional way the lost have of saying that they are not lost. Just take this thing of being lost or not lost down to common sense. Is not a man lost to God if God cannot trust him? There is a lot of rot about "trusting God," the main thing is can God trust you? Do you think that you are going to find the way through the gates, if you would not know to and act honest after you got to heaven? Or could you hold a job in heaven? Or would you not be up in the air so badly as to how to keep from stealing and lying, that you would get all confused and have to be fired?

There is no theology about this lost or saved business—it is just a plain business proposition that is all. Of course this is, assuming that man is not going to lie down and die like an ox or a sheep. Those who wish to do this, will probably accomplish it however. But why not look a little higher? Now the best possible way to become unlost is to seek the lost.

It is said that about a hundred and fifty thousand Presbyterian Christians will go out for three hours Sunday, and seek $38,000,000. Ultimately the object of these seekers is to find the lost—those lost in sin, yes, sin and no apologies for the word. Let no man quibble over the possibility of some of those dollars being misspent. There were many lost footsteps in the search for little Lincoln Ramsey—in fact they were all lost. But would any of the stern mountaineers regret their toil and their tears and their midnight prayers?

"He that putteth his hand to the plow and turneth back is not fit for the kingdom." Your money feeding and clothing some boy and paying for the education of his mind may yet help raise up a Spirit filled Evangelist. The searchers you may send out under divine leading may find many heroes of the Cross. You may help loose some eloquent tongue, that would otherwise have talked the commonplace language as to "what shall we eat and what shall we drink and where with all shall we be clothed?"

If we do not seek the lost with as much determination, as did those who sought in vain for the lost mountain boy, we need not wonder if the Kingdom continues to remain a great way off, if wars and rumors of wars continue, if the prophets are still killed by unappreciation and if hells are made in every country, like those now going on in Germany and Russia.

Voice of the People

The Albany-Decatur Daily:

An old time revival is expected in the series of evangelistic services which are to begin early in April at the First Baptist church of Decatur. The leadership of Rev. J. B. Tallent, the pastor, is strong assurance that the revival will be a great soul saving campaign. Rev. Tallent has a great record as a revivalist and has conducted many successful meetings, both in Georgia and Tennessee, his native state. At one revival alone the converts ran into the hundreds. He is a great evangelistic speaker, and his methods of speaking are such as the devil cannot withstand long, and the evil one is usually completely routed before the services close. He is absolutely fearless, and condemns sin in every form, regardless of who the indulgers are.

Yours truly,
J. C. WHITE.

TO CONSUMERS OF HEN AND CHICK FEED:

Please bear in mind that there is no feed like CORNO. We have cheaper feeds at 50c and up less in price than CORNO, but results from feeding are not the same. You get more eggs and the condition of your stock is superior when CORNO is fed.

A cheaper feed costs as much in freight and salesmen's salaries, so YOU do not get a benefit.

Examine closely a sample of cheaper feed and you will readily see that it is made to sell and not to feed your fowls for best results.

You Can't Rub It Away; Rheumatism is in the Blood

Liniments Will Never Cure.

If you are afflicted with Rheumatism, why waste time with liniments, lotions and other local applications that never did cure Rheumatism, and never will?

Do not try to rub the pain away, for you will never succeed. Try the sensible plan of finding the cause of the pain, and go after that. Remove the cause, and there can be no pain.

You will never be rid of Rheumatism until you cleanse your blood of the germs that cause the disease. S. S. S. has never had an equal as a blood purifier and scores of sufferers say that it has cleansed their blood of Rheumatism, and removed all trace of the disease from their system.

Get a bottle of S. S. S. at your drug store, and get on the right treatment to-day. If you want special medical advice, you can obtain it free by addressing Medical Director, 23 Swift Laboratory, Atlanta, Ga.

AMUSEMENTS

STRONG CHARACTER FOR H. B. WALTHALL STAR THEATRE TODAY

Henry B. Walthall, who has long been acclaimed the most talented actor of the screen, has in "The Lane's Turning" a role which possesses all the elements of those characterizations which established this star as supreme in his work for the screen.

Mr. Walthall assumes the part of Harry Sevier, a brilliant young attorney in a Virginia town, who is secretly addicted to liquor. The vice results in his losing a case, sacrificing for the time being the love of the beautiful girl he hopes to marry, and involves him in an attempted blackmailing and murder episode, for which he is sent to prison in another state for a crime he never committed.

The story, which is a screen dramatization of the novel by Hallie Erminie Rives, of the same title, is admirably worked out, the interest being sustained until the last big climax in which the blackmailer is denounced.

DAILY HEALTH TALKS

What Is The Cause of Backache?

BY DOCTOR CORNELL

Backache is perhaps the most common ailment from which women suffer. Rarely do you find anybody free from it. Sometimes the cause is obscure, but Dr. Pierce, of Buffalo, N. Y., a high medical authority, says the cause is very often a form of catarrh that settles in the delicate membranes of the feminine organs. When these organs are inflamed, the first symptom is backache, accompanied by bearing-down sensations, weakness, unhealthy discharges, irregularity, painful periods, irritation, headache and a general run-down condition. Any woman in this condition is to be pitied, but pity does not cure. The trouble calls for Dr. Pierce's Favorite Prescription, which is a separate and distinct medicine for women. It is made of roots and herbs put up without alcohol or opiate of any kind, for Dr. Pierce uses nothing else in his prescription. Favorite Prescription is a natural remedy for women, for the vegetable growths of which it is made seem to have been intended by Nature for that very purpose. Thousands of girls and women, young and old, have taken it, and thousands have written grateful letters to Dr. Pierce saying it made them well. In taking Favorite Prescription, it is reassuring to know that it goes straight to the cause of the trouble. There is but one way to overcome sickness, and that is to overcome the cause. That is precisely what Favorite Prescription is intended to do.

Send 10c for trial pkg. of Tablets. Address Invalids' Hotel, Buffalo, N. Y.

Constipated women, as well as men, are advised by Dr. Pierce to take his Pleasant Pellets. They are just splendid for costiveness.

Are You Awaiting The Great Crisis?

If So, Do Not Allow the Time to Pass With Nature Unaided.

Women who give nature a helping hand during the period of expectancy find that when the time arrives for baby's coming it is approached and passed with infinitely less pain and danger.

Thousands of women for over half a century have learned that in the time-honored preparation, Mother's Friend, they have a grateful, relaxing, penetrating remedy, the use of which makes it possible for them to go through childbirth without the usual nausea, nervousness, bearing-down and stretching pains, and that through its use the hours at the crisis are fewer and of much less pain and danger.

Mother's Friend penetrates the muscles, rendering them pliant and easily governed by the demands of nature. They relax gently and bring happy days and calm, restful nights. As the result the crisis is passed with greater ease and in less time, the breasts are kept in good condition and the skin is made and kept soft and free from blemishes.

Write to the Bradfield Regulator Company, Dept. P, Lamar Building, Atlanta, Georgia, for their Motherhood Book, and obtain a bottle of Mother's Friend from your druggist today and thoroughly fortify yourself for the coming event.

How Much Sleep do You Need

The great common sense of the human race says—"Go to bed when you're tired; get up when you're rested"

JUST how long it takes to get rested depends on how "deep" you sleep. Perhaps you are one of the lucky individuals who are "dead to the world" when you sleep.

But if you are only about half asleep all night, tossing about and waking at every little sound, you can stay in bed twenty-four hours and still need sleep.

Sleeping soundly is a matter of getting perfectly relaxed. The slightest noise keeps the nerves alert.

What you need for deep, sound sleep all night is a *perfectly quiet bed* and a spring that *invites complete relaxation.*

That is why people sleep so much better in the Simmons Metal Bed and Slumber King Spring.

THE Simmons Metal Bed is *noiseless.* It locks firm at the corners. The corner locks are made of pressed steel—have much longer bearing surfaces than the average—fit true and snug—not a creak, rattle or feeling of unsteadiness.

These patented corner locks have made possible the *Three-piece Bed*—the new Simmons idea—the spring forming a single unit with the side rails.

* * *

THE Slumber King Spring really *does* what you have always wanted a spring to do.

It yields to the weight of the body, but supports it. It fits square on the bed. It does not sag, hump—or lose its resiliency. It is always a firm, elastic foundation for the mattress. It invites sound, health-giving sleep. It is rust-proof. It has no loose ends or rough corners—cannot wear or tear the ticking.

* * *

THE hard work and nervous strain of these days forces attention to *sleep.*

The Simmons Metal Bed and Slumber King Spring are what you are looking for—made to *invite sleep.*

We have them in a wide choice of beautiful styles in brass—and in enamel in colors and natural wood effects at prices no higher than for ordinary beds.

Come in and let us show them to you.

LETTERS FROM TRENCH & CAMP

The friends of Private Joe D. Williams will take interest in reading a letter written to his parents, Mr. and Mrs. C. W. Williams of West Albany. The letter follows:

Verdun, France, Nov. 27, 1918

Mr. C. W. Williams.

Dear Father:

I started to write you a Xmas letter Sunday last, but while I was writing was called off for a trip and was gone for a couple of days but will try to finish it now.

I learn from one of the papers that the censorship has been lifted to a certain extent so it may interest you to know something of the nature of my work and what I have been doing since I left the U. S. A.

We sailed from Philadelphia, Pa., on July 14, going by way of Halifax and spending two days in the harber there where we met the rest of our ships that came over with us. Going the northern route we saw a couple of ice burgs which was quite a sight for me.

The voyage was a quiet one except for being called out at any time of night or day for fire or life boat drill untill two days before the end of our journey when all at once the whistles began to sound and the ships started in a new direction, then the excitement began. We were in the midst of a sub fight which resulted in our getting two of the U-boats and no casualties. We landed in Liverpool, Eng., on the 31st day of July, being seventeen days on the water.

We hiked through the city, a distance of five miles to an English rest camp here, we spent a couple of days doing a bit of personal policing and other things which was very necessary.

From here we boarded a train which carried us across England to another rest camp near Winchester, passing through some of the largest cities of England.

From here we hiked to South Hampton, some ten or twelve miles where we sailed across the channel in a speedy boat called the Saint George and landed in Dear France at La Havre on Monday morning of August the fifth.

There we spent a few days and then started on our real journey across France, which was not so pleasant as the previous ones, about thirty five being in a box car, twenty feet in length. This lasted for three days when we finally stopped at a place called Metz and hiked out about three where we spent four weeks doing wheer we spent four weeks doing squad drill and rifle practice.

We were the first American soldiers in this town and naturally we were new to them but they finally learned to understand us and did everything in their power to make the stay a pleasant one for us.

From here we started for the real front, stopping around from one place to another for about ten days and finally landed in that now world famous Argonne Forest where we were subject to enemy shell fire at all times.

I spent about a week there hauling ammunition when I took what I thought to be a bad cold but the doctor said that I must go to the hospital so I was put out of action for more than a month.

I returned to the company at a place called Amblz. They were hauling ammunition from this place to the Verdun front but we moved in a few days which is nearer Verdun which is on the East about four miles from the front where we have been ever since.

You may have wondered as to the danger that I was in and after it is all over I will say that there is no safe place if a man is in action and the ammunition train might be considered as safe as any if the enemy doesn't get your range. This company has been fairly fortunate so far in regards to casualties. I guess Earl has told you quite a bit about the horrors of war and I will have to finish telling it if I am fortunate enough to get back to the dear old U. S. A. and home.

There are quite a lot of rumors going the rounds now about going home and when the only thing to do is to patiently wait and make the best of thin. until the day comes for us to sail for our dear home land.

Will close, write. Love from,

DUNCAN.

Verdun, France, Dec. 1, 1918

Dear oMther:

As Father's letter has not been mailed I will add a few lines.

This leaves me well and anxicus to come home, but quite busy hauling supplies for the advance Depot or salvage from the battle fields.

Now that the war is over I feel much more confident of getting to come home but the question among us is when will that time come.

Every division is sure that his particular division will be the first to get home but you know that we all can't come home at once, so I am going to make myself contented until our time comes and that will be a day of great rejoicing.

Received two letters from you this week written the latter part of October. How are all the home people, sorry to hear of so much sickness around you as well as all over the country. We have had quite a bit of the "flu" over here.

Will close with love to all, from

DUNCAN W.

Pons, France, Dec. 27, 1918

Mr. A. M. Smith,

Albany, Ala.

Dear Brother:—

Will write to you again tonight as I am not working and has been several days since I have written you. My package came all right on Xmas day and everything was in it and in good condition. My pen sure is a dandy and I am certainly proud of it, and it is just the kind of a pen that I like. I am not using it now as I haven't any good ink I put enough in it to try it. It sure does write good.

I have had a good Xmas. We had a nice good dinner Xmas day, had Turkey and pork and a lot of good things and each man in the company got a Xmas package from the Y. M. C. A. Our company commander made us a nice talk in the mess hall Xmas day as soon as we were through eating dinner and said that he was proud of his company and wished us all a Merry Xmas and Happy New Year. He made us a good talk and everybody felt good. We sure have a good company commander. All of us Sergeants in the company had a banquet last night at the best hotel in Pons and had our company commander with us and another Lieutenant and a Captain that are stationed here at Pons. There were eighteen in the bunch, 15 sergeants, and the lieutenants and captain. We also had a musician and had some good music, we had a real French supper, it sure was fine. We took some flash light pictures while we were at the banquet. Will send you one of them later if they are good.

Well Mahlon I guess you have been as busy with the mail this Xmas as ever. I hope it hasn't been raining here like it has been here for the last six weeks. I think it has rained here every day for the last month and is still raining. Xmas morning was pretty for a while and looked like it was going to be a nice day, but rained before dinner time but the rain doesn't make much difference to me, I have a rain coat and a pair of rubber boots, and don't have to be out in the rain hardly any at all, if I don't want to. We are still baking a little bread now and then, we don't have to work only a few days a week as there are not many soldiers left here to bake for. I hope I will be on the way to the U. S. soon but don't know how much longer we will be here, can't tell anything about it. Might leave for the states in a month and may be here several months more, anyway I expect to be home by summer time if not before. I had a good trip coming over but will have a much better one coming home. There won't be any submarines to think about and the best thing of all will be coming home. I am getting along fine and hope I will have an easy time as I have had at Pons the rest of the time that I am in France. We sure have had things easy here and have gotten along fine, in fact so far I haven't regretted my trip to France.

Well Mahlon will close for this time. I haven't heard from you for over a week but am expecting to when we get mail again.

Hoping this finds you and Mary Lou and the boys all well, and wishing you a happy and prosperous New Year. Your brother,

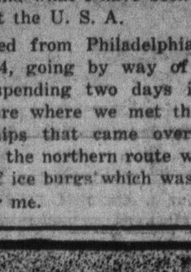

Sergt. George H. Smith.
